Stocke—The news of the day was not generally of a character to affect values on the Stock Exchange, and the usually active shares presented little feature of importance throughout the day. The extraordinary interest developed in the low priced Southern and Sonthwestern shares, however, suffered no diminution and they were again active and strong, monopolizing most of the interest taken in the speculation. The market was active and feverish in the early part of the day, over one-third of the entire day's business being transacted in the first hour. Prices were weak throughout the room contributing most this effect. Among the usually active stocks, Jersey Central, Omaha and Louisville and Nashville were given most attention, and smorg the specialties Richmond and West Point, Norfolk and Western and Colorado Coal were most traded in The former was particularly active and strong upon the bull steries put out of late, though the assertion that a settlement had been arrived at with the Danville company probably had most effect. The Nickel Plate stocks again come into prominence and show a handsome advance this evening. The

GENERAL NEWS. BUSINESS quiet.

WEATHER cloudy, with heavy rains. The river here is on a stand, with 3 feet 8 tenths on the gange.

ED, GRAY and Jim Smith will pilot the Hudson in the Vicksburg trade.

of the big Helena, dated at Helena yesterday, says the above steamer will arrive today.

A heavy fog last night will doubt-less cause all the local packets to be behind time this morning, and also several others that are overdue. THE Chickesaw arrived last night from White river with 1613 bales of cotton and 265 tacks of seed, the

largest trip of cotton ever brought out of that stream for this port. THE fact that the steamer Mascotte was not injured by the explosion, but caught fire and was thus destroyed. gives the owners reason to think they can recover the insurance on her.

THE Hudson will remain in the St. Louis and Vicksburg trade during the continuance of low water, but as soon as the Ohio vises sufficiently she will resume her regu'ar trips to Paducah. PATER SHINKLE, the venerable father

of Capt. Oliver D. Shinkle, and the late Capt. Var. Shinkle, is confined to his home in Coving. He is in feeble health, being in his capt.

The steamer Equirer was sold yes-terday at noon by the United States Marshal for \$305, and was bought by J. N. Harbin, representing the Arkan-sas River Packet Company. The first bid by Capt. Ed Nowland was \$200, Capt. Randall bid \$300, but would not advance farther. THE New Orleans Picayune of Wed-

needsy says: A partial examination was made yesterday of the break in the Ed Richardson's hull, but no estimate was made as to the amount of damage done. One well known and experienced river man said the owners of the Ed Richardson would be doing well to have her repaired for \$20,000. THE City of Providence arrived yes-

terday at noon from St. Louis. She was detained at Island 40 seventeen hours, getting aeround. She report six and a half water foot of Island and Island 40 seven feet, with the stick running the outside way. She discharged here 56 bales cotton, 121 bays seed cotton, 3768 sacks seed, 1523 packages sundries, and will add 60 tons freight for points below here add and get away at an early hour this morning for Vicksburg. THE English Government, in order

to provide a cheap and convenient fuel for its steamers and works in India and elsewhere, is experimenting with gas tar. Dead oils have been extracted from the tar, and success has already been attained in running a locomotive with the fuel. It is said the cost of the fuel will be one-half that of coal. As fuel is a big item of expense in America, especially on Western rivers, its assured success will be re-ceived in this country with much delight. WEATHER AND RIVERS.
